INSTRUCTIONS FOR USE:

To determine your child's correct size, print out these pages. Placing this page on top, align each printed page with the indicated FIT mark. Tape these pages together and follow the instructions below:

Place the child's heel on the chart where indicated and measure to the end of the longest toe. If the toe is between numbers, that indicates a half size.

Infants will often curl their toes. Gently press down on top of their foot to get an accurate foot length.

If the child's foot touches well into the gray area of the chart, you may want to order a wide width.
